# UHDC43 system

## Digital Distribution Frame (DDF)

The frames are available in different sizes to meet the standards of existing telecoms frames. The UHDC43 DDF has been designed around giving better access to installers, whilst improving cable management of systems.

- Frames comply with latest ETSI standards
- Frames can be back-to-back mounted or stand alone applications
- Ease of access for installers

Description	Height (m)	Width (mm)	Depth (mm)	Vertical rows of connector blocks	Blocks per Vert	Greenwoods Part Number
UHDC43 DDF	2.2	750	260	3	24	<a href="#">24BA0080</a>
UHDC43 DDF	2.2	600	260	2	24	<a href="#">24BA0082</a>

## Top Cable Management Trays

The top trays fit onto the top of the UHDC43 DDF, offering additional cable management space for jumper cables to run from one frame to another.

Description	Width (mm)	Depth (mm)	Greenwoods Part Number
Single top tray	750	380	<a href="#">26BA1003</a>
Double top tray	750	770	<a href="#">26BA1013 *</a>

\* Comes with metal guides

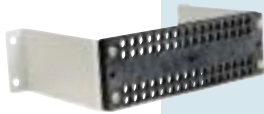

A DDF featuring a double top tray

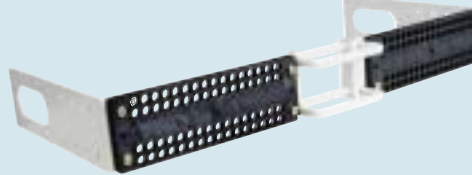

## UHDC43 DDF Patch Panels

Description	Greenwoods Part Number
19" shelf 2U, two connector blocks fitted, 32 circuits per block	26BA2100
Free mounted shelf, one connector block fitted, 16 circuits per block	26BA2104
ETSI conversion bracket for 26BA2100	26BA1904

Free mounted shelf

19" shelf 2U

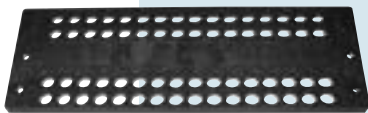

ETSI conversion bracket

## Connector Mounting Blocks

Description	Greenwoods Part Number
UHDC43 mounting block	26KB0012

## Circuit Identification

Circuit identification aids engineers during the installation process by providing clear colour coded labels and incorporating index lines on block mountings.

Description	Greenwoods Part Number
Label identification for UHDC43	26EL0011
Clear plastic label cover (various colours available)	26AZ2050
Retaining pins for labels (red)	26KB0051
Mounting block kit includes 8 UHDC43 mounting block, identification labels (sheet of 8), 8 clear plastic covers, 16 retaining pins and 32 M4 screws (12mm)	41AG1010
